

The subjects of the sub-charts are named in the RED boxes below
To see the printable sub-charts, click on “Powys charts” above.
Then click on “Print sub-charts”, the third menu option.

This study of the descendants of Sir Thomas Powys:

1. Lists all the descendants found to date, both male and female,
2. Is made solely from publicly available documents, save for people who are abroad,
3. Recognises his Y-DNA that has been identified by two of his male line descendants having the same Y-DNA.
4. Includes also a mapping of the lines that still carry the Powys name.

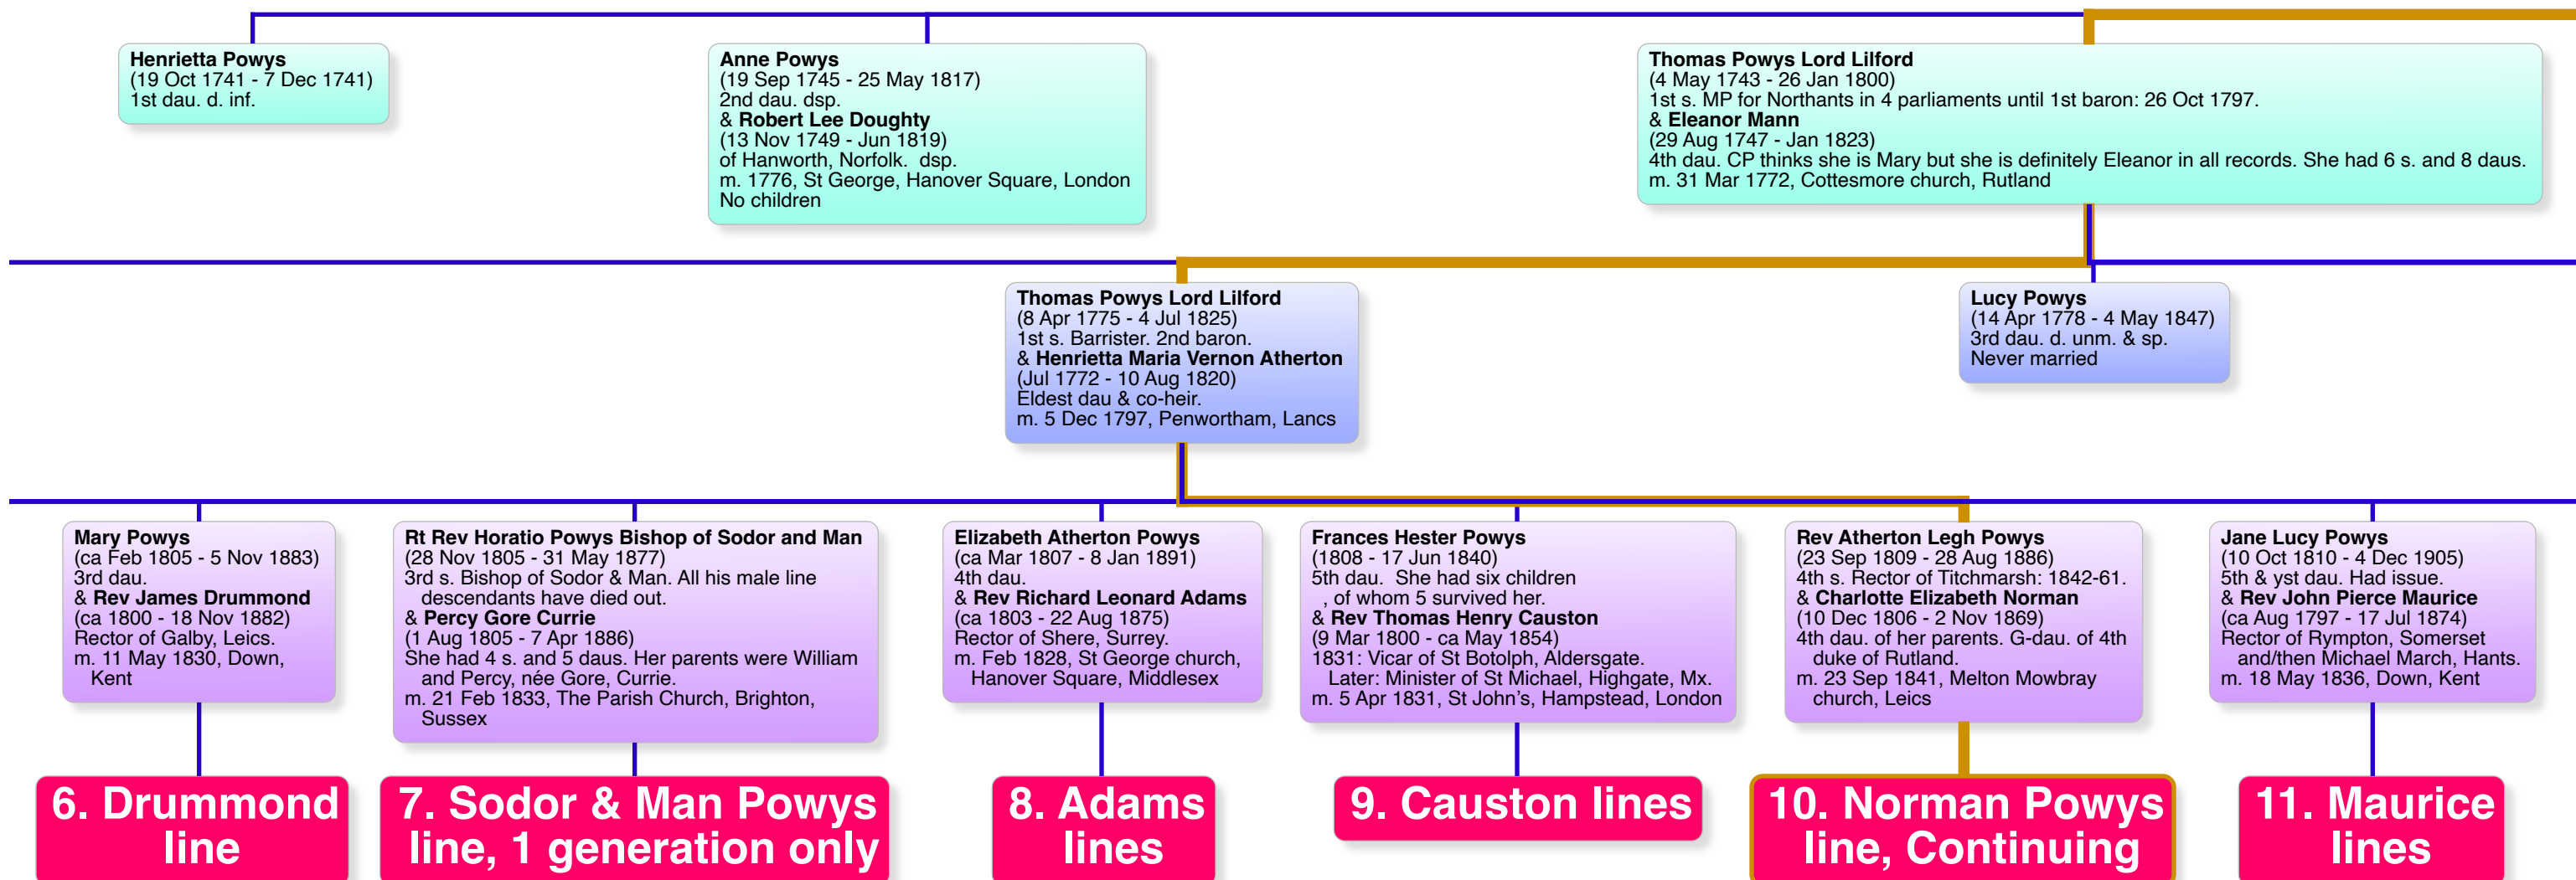

The Gold lines: are the tested lines of Y-DNA (male only) descent from Sir Thomas. They are proven by male line descendants having identical Y-DNA. This requires at least two such to establish the link.

Y-DNA is only preserved and held through lines of male-only descent.

More GOLD lines will be added for those male lines who test and are proved to have the same Y-DNA

These will all be examples of Gold Standard Genealogy

All Descendants of Sir Thomas Powys, top outline
