

At a later date this will be split into at least two separate charts:

1

First one for the these Wodehouse lines,  
Second one for the Aufrère lines,  
Third one for the Bramston lines.

There is a shed-load of research needed, covering loads of people.

There is another branch of the Wodehouse family,  
also descended from Sir Thomas.  
See the Norman Powys chart.  
P G Wodehouse is a cousin of this other branch.
